

60W LED Aquarium Light

Picture:

Parameter:

term	Value	term	Value
Size	400x212x62mm	Power	60W (60x1W)
Input Voltage	AC85~264V	lux	1M/1252,2M/542,3M/332
Input current	300mA	Lifespan	50,000 Hours
Frequency	50/60 Hz	Color	B/W
Working environment	-20°-40°	Lighting Area	25M ² /3m
Inner box	455x275x110mm	GW	3.5kg/pcs
Carton box	475x280x475mm	GW	14kg/4pcs

Description

1. Use high efficient 1w LED as the light source, Based on 60x1W high power LEDs.
2. Wide beam angle: 120 degree
3. Unique heat dissipation device: thermostatically controlled fans to keep LED light cool.
4. Built-in CE approval Power supply, plug and play

specification

1. Use high efficient 1w LED as the light source, Based on 60x1W high power LEDs.
2. Wide beam angle: 120 degree
3. Unique heat dissipation device: thermostatically controlled fans to keep LED light
